Subject: Acceptance of Amendment, Deficient Notice of Intention to Commence Small Mining Operations; Martinique Mining Corporation; Mine: Crescent Creek/May Day Mill; S/017/0043; Garfield County, Utah

Dear Mr. Azoulay:

On August 16, 2011, the Division of Oil, Gas and Mining received from you an amendment to update ownership information for the referenced mine. The amendment is complete, but the Notice of Intention to Commence Small Mining Operations (NOI) as a whole is missing necessary information and needs to be updated.

The original NOI was based on the BLM notice form, and it does not contain all the information required by the Division. The maps are incomplete and not of a quality that they could be used to determine where the project is located or exactly what would be disturbed. For this reason, the Division asks that you submit a new NOI (except that the pages just submitted do not need to be duplicated).

The NOI needs to include a location map and an operations map. The location map is normally at a scale of about 1"=2000', such as a USGS quad map, and should show the location of the operation in relation to recognizable features, such as paved public roads. The operations map should be at a scale of about 1"=200' and needs to show details of the disturbance, including any processing facilities, soil stockpiles, roads, and previous disturbances for which you are not responsible.

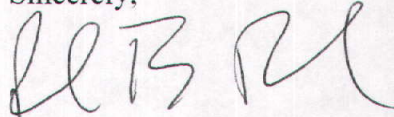

Please submit the NOI no later than October 18, 2011.

The NOI form is available on the Division's web site at
http://linux1.ogm.utah.gov/WebStuff/wwwroot/minerals/permit_forms.html.

I apologize for not asking for the new NOI at the same time as asking for the amendment to update ownership information but thank you for supplying the ownership update. Please call Wayne Western at 801-538-5263 or me at 801-538-5261 if you have questions about this letter other requirements of the NOI. Thank you for your cooperation.

Sincerely,

A handwritten signature in black ink, appearing to read 'PB Baker', written over the word 'Sincerely,'.

Paul B. Baker
